Days and Sections noted are subject to change

**students will be paying full-time fees in Summer 2025 due to the course load. Students have the option to complete the Professional Practice 2 in Fall 2025 in order to remain part-time

Notes

Courses are scheduled during daytime hours. All courses and labs are delivered at the Barrie Campus.
(some courses MAY be offered virtually rather than on campus)

Clinical is onsite at an agency:

PSWR 1041 Professional Practice 1 will be on Tuesdays and Wednesdays

Usually the day shift which generally starts at 6am.

Students will need to be able to get to the agency themselves. Not all agencies will be in Barrie.

PSWR 1042 Professional Practice 2 - students are paired with an agency PSW (preceptor) and they will follow the preceptor's schedule which could involve days, evenings and weekends.

When planning your schedule, it is suggested that you take Communications and General Education required courses in Summer 2025.

Note, Communications and General Education courses are offered every semester. Students can add in to their course load (reminder that you may move into full-time status) in any semester.
